**Project aim: To develop an integrated care pathway for children admitted with Seizures.**

**Planned tests: To develop flow chart to guide doctors in managing patients admitted with seizures.**

**Results: It has been developed now (attached to this email).**

**Challenges Successes: Getting all team members together at one time to sit and work on pathway is a challenge due to various other commitments of members.**

### Next steps:

With the development of flow chart, the whole integrated pathway is ready now. We would now start testing the whole document in our acute admissions unit.
