**Project aim: To develop an integrated care pathway for children admitted with Seizures.**

**Planned tests:**

**Results:**

**Challenges Successes: Challenge-** To get all the team members together at one time in one place to discuss and prepare the integrated pathway. **Success** has been to finish the surveys in time.

**Next steps:** To divide the various parts of this pathway in small parts and each member to concentrate on preparing one part of the pathway for quicker results.

Once, the pathway is ready, we would start testing it in the acute assessment unit.
