1:00 Monthly RCPCH EQIP call  
2:00

## PROGRESS REPORT

EQIP champion name: Toby Hunt

Trust/Health Board team name: Royal United Hospital, Bath

Trust/Health Board team members:

Eve Bassett, Toby Hunt, Faye Price, Jenny Ferguson, Carrie Furnell, Sam Amin

**Project aim:**

To develop and implement pathway for 1<sup>st</sup> paroxysmal events allowing review by pediatrician with special interest in epilepsy by When ?

**Planned tests:**

**Test 1: “patient story” – will this help win “buy-in” of consultant colleagues – success with several colleagues**

**Test 2: coding data to estimate demand for new epilepsy clinic slots – Failed as trust does not collect any diagnosis coding data for outpatients**

**Challenges:**

**Lack of accurate coded data regarding potential demand for service**

**Time capacity for epilepsy nurse**

**Room capacity for outpatients**

**Geography of patient cohort**

**Carving out time for EQIP**

**Successes:**

**Met with data team at RUH**

**Process map stakeholder map and driver diagram completed what key highlights did you discover from your process map .....any surprises ? this will link to your next steps to work on the areas where gaps were identified.**

**Early signs show good consultant buy-in in what way?**

**Next steps:**

**Test 3: Scope broader consultant buy-in (via governance meeting) using data / patient story, gain broader insight to help guide the project**

**Test 4: Re-evaluate available data using epilepsy 12 / local database**

**Process map potential new pathway (including liaising with Amy Whiting – ENS Taunton).**

**Great start I look forward to learning more about the engagement and changes you are making well done to the team**
