The event will provide an opportunity to share learning across a variety of themes covered by the project interventions of EQIP teams, including:

- Improving and adapting the transition process to adult services
- Reducing referral waiting times for first seizure pathway
- Increasing the patient voice and improving patient experience
- Developing an integrated care pathway and increasing specialist input
- Toolkit for clinicians to use for providing information on SUDEP to families
- Improving the mental health pathway
- Digital updates to the Epilepsy Passport

The event is free.
