Project team - by summer 2022
 7/75 of children with
 first AFEptic seizure will
 be seen in epilepsy clinic
 within 2 weeks of
 presentation to ED (week
 or within 2 weeks of
 as referral.

Primary Drivers

Hint: use verb noun construct)

Insert text
 Improve pathway for first
 AFEptic seizure in children
 attending hospital

Insert text
 Improve pathway for
 first AFEptic seizure
 referrals from GP

Develop + improve
 protocols for new
 Insert text
 seizure admission and standardise
 shared information checklist

Insert text
 Review number of
 first AFEptic seizure
 referrals (Aariz vs GP)
 and clinic capacity

Secondary Drivers

Areas where your PDSAs will be applied

Insert text
 ED + GP awareness
 - Education of
 staff regarding first
 seizure pathway
 - Audit of ED
 attendance to review
 patients referred versus
 not referred

Insert text
 Booking - first referral
 pathway
 - Improve time
 and pathway for GP
 referrals patients

Insert text

Ideas for change

The PDSAs you undertake Teams
 identify project plans

- 1) EDS RESOURCES CHANGE / PATHWAY
 - ALL EPILEPSY FOLLOW-UP
 → EPILEPSY CLINIC
- 2) ED / AEDS FIRST AFEPTIC SEIZURE PATHWAY / PLAN CHANGING
- 3) ASSESS + PROMOTE INFORMATION DOCUMENTS + CHECKLIST - WARD + ED
- 4) Education + Awareness of FIRST FIT PATHWAY
- 5) ADD Extra clinic space + MONITORING EPILEPSY CLINICS
- 6) Awareness of Booking staff + ADMIN TEAM FOR "FIRST FIT CLINIC" PARTICULARLY
- 7) PATIENT EDUCATION MATERIAL (USE PATIENTS WHOSE WOULD BE "FIRST FIT")
 - EVALUATE?
